

Name: _____

Number Bond and Fact Family Practice to 10

Directions: Use a regular deck of playing cards without the face cards. Choose two cards to start your number bond. Use the larger number for the whole and the other number for one part. Then complete the number bond and write all four number sentences for that number bond. *The whole is bold.

Sample: I drew an 8 and a 3.

$$\begin{array}{l} 5 + 3 = 8 \\ 3 + 5 = 8 \\ 8 - 5 = 3 \\ 8 - 3 = 5 \end{array}$$

$$\begin{array}{l} \square + \square = \square \\ \square + \square = \square \\ \square - \square = \square \\ \square - \square = \square \end{array}$$

$$\begin{array}{l} \square + \square = \square \\ \square + \square = \square \\ \square - \square = \square \\ \square - \square = \square \end{array}$$

$$\begin{array}{l} \square + \square = \square \\ \square + \square = \square \\ \square - \square = \square \\ \square - \square = \square \end{array}$$

$$\begin{array}{l} \square + \square = \square \\ \square + \square = \square \\ \square - \square = \square \\ \square - \square = \square \end{array}$$

$$\begin{array}{l} \square + \square = \square \\ \square + \square = \square \\ \square - \square = \square \\ \square - \square = \square \end{array}$$

Continue to practice number bonds and fact families by drawing your own number bonds and writing your own fact families. There are more number bond activities on the TCA Website:
